

Hit and Run- Jess Moskaluke, Alex Kline, Kirk Sauers

Verse 1:

You wash down that maker's mark, and make your mark on the road
Skid outta those Bristol bars, like a bullet to my home
'Cause you know, you've crashed here before
You better go, I know what you're here for

Chorus:

You roll up when it feels right and you wanna have your fun
You pull in at midnight and you peel out by one
So keep on driving baby, I think I'm finally done
I might be a sweet ride
But I ain't your hit and run

Verse 2:

You won't blindside me again, then run off with the guys
Your words weren't no accident, just cadillac lies
Yeah they're smooth, but I'm on to you

Chorus:

You roll up when it feels right and you wanna have your fun
You pull in at midnight and you peel out by one
So keep on driving baby, I think I'm finally done
I might be a sweet ride
But I ain't your hit and run

Bridge:

Keep on rolling, keep on rolling, keep on rolling
Outta my sight
Keep on rolling, Keep on rolling

Chorus:

You roll up when it feels right and you wanna have your fun
You pull in at midnight and you peel out by one
So keep on driving baby, Yeah, boy, I'm finally done
I might be a sweet ride
But I ain't your hit and run

You can't get it this time
Cause I ain't your hit and run
