

Good Lovin':

There's a 2 for 1 special on candles at the 5 and dime  
We can drown our troubles in the bubbles of some Boone's Farm wine  
Johnny's the only cash we'll need  
A little more light and a summertime breeze  
We'll make out like the birds and the bees  
Oh that sounds like money to me

We're broke  
We're busted  
Ain't got 2 dimes for rubbin'  
When the car's on blocks and the power's off  
Don't matter when we're kissin' and a huggin'  
Oh the radio's free so come on dance with me  
Who cares if we're living on a budget  
Good lovin'  
Costs nothin'  
Good lovin' it don't cost nothin'

Yeah I know a guy working nights at the Holiday Inn  
If we could hitch a ride, he'll meet us outside and then  
You'll get a back rub  
In the hot tub  
Maybe even make a scene  
Oh, we're doing it right on a Saturday night  
Living the American dream

We're broke  
We're busted  
Ain't got 2 dimes for rubbin'  
When the car's on blocks and the power's off  
Don't matter when we're kissin' and a huggin'  
Oh the radio's free so come on dance with me  
Who cares if we're living on a budget  
Good lovin'  
Costs nothin'  
Good lovin' it don't cost nothin'

Kissin', huggin'  
Back rubbin', hot tubbin'  
Baby, your lovin'  
Sounds like money to me

We're broke  
We're busted  
Ain't got 2 dimes for rubbin'  
When the car's on blocks and the power's off  
Don't matter when we're kissin' and a huggin'  
Oh the radio's free so come on dance with me  
Who cares if we're living on a budget  
Good lovin'  
Costs nothin'  
Good lovin' it don't cost nothin'

Good lovin',  
Costs nothin'  
Good lovin' it don't cost nothin'

Cheap Wine and Cigarettes:

You call me up  
When you get lonely, make me feel  
Like I'm the only one you love  
And then I just can't get enough  
Hey, hey, like

Cheap wine and cigarettes  
That kinda taste that you don't forget  
You take me high and leave me in a mess, just like  
Cheap wine and cigarettes  
Hey, hey yeah  
Hey, hey yeah

You're like a curse  
You know I want you, crave you, wake up feeling worse  
Yeah, but then the night it comes around  
Baby I just can't put you down  
I can't put you down like

Cheap wine and cigarettes  
That kinda taste that you don't forget  
You take me high and leave me in a mess, just like  
Cheap wine and cigarettes

You're no good for me babe  
But I still give into you anyway  
Hey, hey, hey like

Cheap wine and cigarettes  
That kinda taste that you don't forget  
You take me high and leave me in a mess, just like  
Cheap wine and cigarettes  
Hey, hey  
Cheap wine and cigarettes  
That kinda taste that you don't forget  
You take me high and leave me in a mess, just like  
Cheap wine and cigarettes  
Hey, hey yeah  
Hey, hey yeah

Used:

Late night phone rings  
I can hear the whiskey in your talk  
Say you want a little company  
Oh, but I know what you really want  
And I can't get there quick enough  
I've already got one foot out the door  
We both know this ain't love  
But that ain't ever stopped this thing before

Hey I could get used, used, used  
To being used by you, you, you  
The pain so good  
That I don't ever wanna lose it  
And I don't mind you dragging this heart around  
Get me so high I never wanna come down  
Oh, oh, oh  
I could get used, used, used  
To being used by you

Melt into the candle light  
And drown in a bottle of wine  
So lost in your eyes  
That I lose track of time  
And I know when the morning comes  
And I'm on my way back home  
I'll still have a good buzz  
That should last me till the next time you call

Hey I could get used, used, used  
To being used by you, you, you  
The pain so good  
That I don't ever wanna lose it  
And I don't mind you dragging this heart around  
Get me so high I never wanna come down  
Oh, oh, oh  
I could get used, used, used  
To being used by you

I could get used, used, used  
To being used by you, you, you  
The pain so good  
That I don't ever wanna lose it

I could get used, used, used  
To being used by you, you, you  
The pain so good  
That I don't ever wanna lose it  
And I don't mind you dragging this heart around  
Get me so high I never wanna come down  
Oh, oh, oh  
I could get used, used, used  
To being used by you

## Light Up The Night:

Laying on a blanket of cool, spring grass  
Listening to the sound of a river roll past  
Tracing the stars while the crickets sing a love song  
Rubbing toes in our bare feet while I'm feeling that rhythm of your heart beat  
And got me thinking how we're shining  
Who needs the sun at dawn?

And ooooh,

Baby we light up the night, light up the night  
It's a spark so strong  
Setting fire to the sky, fire to the sky  
Baby, when you pull me in tight  
Brighter than an army of fireflies  
And ooooh,  
Baby we light up the night, light up the night

Bet you could feel this rush from miles around  
Like a lightning strike when it hits the ground  
It's like the first time, every time that we touch  
Something about my hand in yours  
Like holding a match to a kerosene torch  
Yeah, the glow from the moon  
Baby, ain't got nothing on us

And ooooh,

Baby we light up the night, light up the night  
It's a spark so strong  
Setting fire to the sky, fire to the sky  
Baby, when you pull me in tight  
Brighter than an army of fireflies  
And ooooh,  
Baby we light up the night, light up the night

And ooooh,

Baby we light up the night, light up the night  
It's a spark so strong  
Setting fire to the sky, fire to the sky  
Baby, when you pull me in tight

Brighter than an army of fireflies  
And ooooh,  
Baby we light up the night, light up the night

Ooooh, baby we light up the night

Strong As It's Ever Been:

A buncha torn up letters in the trash with a dried up pen  
Empty bottle of wine and these 4 walls caving in  
And the moonlight shining is as strong as its ever been  
Just like this love

Is as pure as it ever was  
Steady as a father's hand  
Warm as a summer sun  
True as a Sunday hymn  
But you left me with an emptiness  
Gone like a midnight win  
And this heartbreak I'm left with  
Is as strong as it's ever been

A lack of Marlboro Reds laying down on an empty bed  
I got a double shot of scotch on the rocks taking off the edge  
And the long, hard, burn is as strong as it's ever been  
Just like this love

Is as pure as it ever was  
Steady as a father's hand  
Warm as a summer sun  
True as a Sunday hymn  
But you left me with an emptiness  
Gone like a midnight win  
And this heartbreak I'm left with  
Is as strong as it's ever been

I wanna call you  
Wanna kiss you  
Wanna drive by and tell you I miss you  
And baby that this love

Is as pure as it ever was  
Steady as a father's hand  
Warm as a summer sun  
True as a Sunday hymn  
But you left me with an emptiness  
Gone like a midnight win  
And this heartbreak I'm left with  
Is as strong as it's ever been

Strong as it's ever been

Show You Crazy:

Ripped a verse out of my bible, bout to start my own revival  
Glass of red and my pink rifle  
I'm loaded up  
Watching reruns on your TV  
Helped myself in, it was easy  
I just made me a copy of  
Your house key

Surprise, baby, here I am  
Your ring still on my left hand

Crazy, baby, I'll show you crazy

I texted you about those voicemails I left you  
It's in those emails I sent you about those calls you missed  
Oh well  
This place looks like the same old same  
Except that photo what's her name  
Sitting in that picture frame that used to hold  
Our first date

Guess she must be real sweet  
Probably not a bit like me

Crazy, baby  
I'll show you crazy  
Playing your words in my head  
Living up to what you said  
I'm crazy, baby  
I'll show you crazy

Ooooh  
Ohhhh  
Ohhhhh

Don't this slinky little black dress go well with this diamond necklace  
Found them in her bedroom dresser  
Bottom drawer  
What's wrong, babe, you're looking pale  
My trains done run off the rail

I'm crazy, baby  
I'll show you crazy  
Playing your words in my head  
Living up to what you said  
I'm crazy, baby  
I'll show you crazy

Oooh, ooh, oooh  
Oooh, oooh ooh  
Ooooh, oooh, oooh

Crazy, baby  
I'll show you crazy

Ripped a verse out of my bible  
Bout to start my own revival  
Glass of red and my pink rifle...

Night We Won't Forget:

Hey!

Hey what we drinking  
Lets go grab a couple more  
Cause I feel the bass hit  
And I'm ready to hit the floor  
Like a fire about to ignite  
This girl's about to take flight  
When I find a gentleman to take me by the hand and keep me in the spotlight

We're gonna dance till we run outta rhythm  
Till they run outta records to spin  
Come last call, baby, we ain't leaving  
It's gonna be a night that we won't forget  
No we won't forget

We don't need a reason  
To get a little loose and come undone  
Cause I gotta feeling  
We're gonna feel it when the morning comes  
Ain't it funny how one shot  
Turns into a karaoke parking lot  
It's one of those once in awhile, blue moon kinda times  
Hope the pictures don't end up online

Cause we're gonna dance till we run outta rhythm  
Till they run outta records to spin  
Come last call, baby, we ain't leaving  
It's gonna be a night that we won't forget  
No we won't forget

Let's put our money where our mouth is  
Put this plan into action  
Shoot the DJ a smile, tell him "turn it up loud!"  
Yeah we're all in  
No stopping

We're gonna dance till we run outta rhythm  
Till they run outta records to spin  
Come last call, baby, we ain't leaving  
It's gonna be a night that we won't forget

We're gonna dance till we run outta rhythm  
Till they run outta records to spin  
Come last call, nah, we ain't leaving  
It's gonna be a night that we won't forget  
No we won't forget  
Won't forget

Never Better:

People call, people text  
Where've I been, what comes next  
Am I finally over you, have I found somebody new  
Force a smile on my face  
I don't know what to say  
When they ask if I'm okay

I don't wanna lie  
I keep the hurt inside

And I just tell them never better  
Cause anywhere I go  
No matter what I do  
The truth is that I'm never better  
Than I was  
When I was  
With you  
With you

Every street I go down  
Any place I hang out  
There's another memory, saying you're not here with me  
That was then, this is now  
Different boy, different crowd  
But I know you're still around

If I see you again  
And you ask me how I've been

Well I'll just say I'm never better  
Cause anywhere I go  
No matter what I do  
The truth is that I'm never better  
Than I was  
When I was  
With you

Never better than the love we made  
Never better than the nights we had  
I know I will never be the same  
So I can say

I'm never better  
I try to keep it all together

Yeah I just say I'm never better  
Cause anywhere I go  
No matter what I do  
The truth is that I'm never better  
Than I was  
When I was  
With you  
With you

No Show:

One time is more than enough to leave me  
Sitting at a bar with a bottle of wine  
All alone  
Shame on you when you did it once  
Shame on me when you did it twice  
You're a no show  
No, no show

You can knock, knock, knock but the curtain's dropped  
You can beg, beg, beg, but it's all you got  
Standing on my porch, waiting for an award  
Oh, no, oh oh no, oh no  
Don't want no show

Well it's half past sorry, you're a little late  
Go home and lay in the bed, you know  
The one you made  
All alone  
You better leave me alone

You can knock, knock, knock but the curtain's dropped  
You can beg, beg, beg, but it's all you got  
Standing on my porch, waiting for an award  
Oh, no, oh oh no, oh no  
Don't want no show

One time is more than enough to leave me sitting at a bar with a bottle of wine  
All alone

You can knock, knock, knock but the curtain's dropped  
You can beg, beg, beg, but it's all you got  
Standing on my porch, waiting for an award  
Oh, no  
You can knock, knock, knock but the curtain's dropped  
You can beg, beg, beg, but it's all you got  
Standing on my porch, waiting for an award  
Oh, no, oh oh no, oh no  
Oh no, oh oh no, oh no  
Don't want no show

When He's Drunk:

11:43 on a Friday eve  
Text from the ex that he's thinking bout me  
Thought to myself, "Well ain't that sweet of him"  
Let me tell you what's gonna happen next  
5 minutes later get another message  
One that says if I stopped by will you let me in

I find it kinda funny  
That he only loves me

When he's drunk  
Sipping on some of that stuff  
That's the only time he wants to  
Fall into these arms of mine  
When the buzz wears off he's hard to find  
Now he's saying that he wants me  
But he only loves me when he's drunk

Told him not to come but he showed up anyway  
Told him that's a game that I ain't gonna play  
Been there, done that, got the shirt, threw it back

Saying that he's lonely  
But he only loves me

When he's drunk  
Sipping on some of that stuff  
That's the only time he wants to  
Fall into these arms of mine  
When the buzz wears off he's hard to find  
Now he's saying that he wants me  
But he only loves me when he's drunk

Saying that he's lonely  
But he only loves me

When he's drunk  
Sipping on some of that stuff  
That's the only time he wants to  
Fall into these arms of mine  
When the buzz wears off he's hard to find

Now he's saying that he wants me  
Acting like he's lonely  
But he ain't getting nothing  
Cause he only loves me when he's drunk

Oh when he's drunk  
When he's drunk
